

Temporary Sound Panels

Art-echo Stop portable acoustic barriers offer an easy and cost effective system for noise attenuation around construction sites, noisy equipment, events, rail maintenance and more.

- Heavy duty PVC exterior for extended durability.
- Highly tuned fill absorbs a wide range of frequencies.
- Breathable membrane allows air and sound to pass but not water.
- Heavy duty grommets provide secure connection for vertical or horizontal use.
- Industrial durability maintain a clean professional appearance.
- Light weight and designed to roll-up for ease of mobility and storage.
